- Primary actor: an editor

- Goal: a request to update the central repository

- Dependencies:

    - Edit

Main Success Scenario

To achieve the goal the actor will:

1. ensure that a branch containing the completed edits is available on the editor owned public fork;

2. ensure that the branch is up to date with the latest master on the main repository;

3. initiate a pull request on the central repository referencing the branch of the editor owned fork.
