Translation Use Case
Resolve Issue

Author: Mark Hedley
Owner: AVD Team
Version: 1

August 14, 2012

- Primary actor: an editor

- Secondary actors: owners

- Goal: An agreed resolution to an identified issue

- Dependencies:

  - Raise Issue

Main Success Scenario

To achieve the goal the primary actor will:

1. initiate an 'Edit Mappings' process;

2. Ensure that the branch resolves the raised issues.

3. Contact the secondary actors detailing the changes requested:

   - All owners of translation elements which have been edited must be contacted and must agree to the change for it to proceed.

4. Iterate changes until agreement is reached.

5. Initialise a 'Pull Request'.
